SUMMARY

Briefly explain why you're a great fit for the role - use the AI assistant to tailor this summary for each job posting.

SKILLS

Programming Languages : C, C++, Java, Python, C#

Web Technologies : HTML, CSS, JavaScript

Database Management : MySQL, SQLite

Technical Skills : Data Structures, Algorithms, DBMS, Computer Networks, Operating Systems, Web Development, AIML

Software & Tools : Git, VS Code, Jupyter Notebook

Python Libraries : NumPy, Pandas, Matplotlib, Scikit-learn

Soft Skills : Communication, Problem Solving, Team Collaboration, Logical Thinking

EXPERIENCE

Flutter App Development Intern

Elsner Technologies Pvt. Ltd.

📅 05/2025 - 06/2025   📍 Ahmedabad, India (Remote)

- Developed a cross-platform mobile application using Flutter and Dart, implementing user authentication, responsive UI, and Firebase integration.
- Collaborated within an Agile development team, using Git/GitHub for version control and contributing to UI/UX enhancements and code optimization.
- Gained hands-on experience in mobile app architecture, state management, and real-world development workflows, strengthening problem-solving and teamwork skills.

EDUCATION

Bachelor of Engineering - Computer Engineering

A D Patel Institute of Technology, CVM University

📅 2021 - 2026   📍 Anand, Gujarat

CGPA
9.12 / 10

- Gained practical understanding of core Computer Engineering concepts including Data Structures, DBMS, Operating Systems, and Object-Oriented Programming, with hands-on implementation using Python, C++, and Java.
- Acquired foundational knowledge in Artificial Intelligence and Machine Learning algorithms, data preprocessing, and model evaluation using tools like NumPy, Pandas, Matplotlib, and Scikit-learn.
- Developed essential technical and professional skills such as problem-solving, teamwork, version control (Git/GitHub), and documentation using MS Office and Google Workspace.

KEY ACHIEVEMENTS

💎 **Participated in 'Internal Smart India Hackathon (SIH-2024)**
Describe what you did and the impact it had.

PROJECTS

Timetable Management System

📅 10/2024 - 11/2024

- A web app for managing clash-free schedules and attendance with separate portals for admins, faculty, and students.
- Implemented features for admin-controlled scheduling, faculty-side attendance marking, and student-side attendance insights with day-wise filtering.
- Technologies used: Java, JSP, Servlets, MySQL, Apache Tomcat, MVC architecture.
